EMPOWERING YOUTH. TRANSFORMING FUTURES.

ABOUT SHAREFEST

In Los Angeles, thousands of continuation high school youth—young people who are too often written off—are just one barrier away from dropping out. Sharefest exists to break that cycle.

Through year-round programming that includes career exploration, professional skills training, paid internships, and long-term, one-on-one mentorship, Sharefest supports students not only as they prepare for careers—but as they enter the workforce and navigate the critical early years of adulthood.

Our mission goes beyond graduation: we stay with students to help them secure real jobs, build lasting professional networks, and move forward with a clear, achievable path toward economic mobility.

JUST ASK PRISCILLA.

She bounced between 13 schools, spent time in foster care, and lost her dad at 12. At 18, she was a year behind in school with little hope for her future — until she met Sharefest. In one year, she completed continuation high school, completed the Sharefest Summer Internship, and joined a specialized career training program through Cedars-Sinai. Today, she's a full-time employee with a construction company with a future she's proud of.

THE GALA

The Hidden Gems Gala is Sharefest's signature annual fundraising event, now celebrating its 23rd year. This unforgettable evening brings together community champions, business leaders and advocates who believe in the potential of every youth. More than a celebration, the Gala is a powerful reminder that the youth we serve are not just our future—they are our present and they overflow with talent, resilience and promise if we take the time to look. Guests will experience inspiring student stories, an exciting auction and a shared commitment to creating real pathways to success.
